

Resto Finance (VELOCE) and Mega Info Systems will promote CENTRAL TAX CT-Payment services.

Repentigny, Quebec – December 1st, 2009 – Resto Finance Inc (VELOCE), Mega Info Systems Inc and Central Tax inc signed an agreement where Resto Finance and Mega Info Systems will integrate Central Tax payment solutions (CT-Payment) into the VELOCE point-of-sale (POS) software, and will promote it to their current and futur customer base.

Resto Finance flag-ship software VELOCE is currently sold via sixteen Quebec distributors and used by over 2000 companies throughout Quebec, Ontario and New-Brunswick. The integration of CT-Payment solutions into VELOCE will allow Resto Finance to enhance its system functionalities and provide additional flexibility to its customers. As well, VELOCE and its users will benefit from CT-Payment new PCI-DSS Level 1 certification which guarantees that the highest security standards are met. Furthermore, the agreement establishes that Mega Info Systems, an important VELOCE distributor, will actively promote and sell CT-Payment solutions soon to be available via VELOCE.

«We constantly strive at improving VELOCE, our star product,» said Miguel Roy, President of Resto Finance Inc. He added: «The integration of CT-Payment will contribute to this objective by increasing the payment options available on VELOCE and by giving our customers access to more than one acquirer to authorise their credit card transactions. »

«We always aim at proposing the best of breed to our customers. This is why we are proud to distribute VELOCE, » stated Mario Goulet, President of Mega Info Systems. «This agreement with Central Tax is further proof of our determination to present our customers with better solutions to help them excel in their industry. »

«VELOCE great set of field tested features, united with CT-Payment technology, will engender the utmost solution for customers,» claimed Denis Savard, President and CEO of Central Tax. «The integration of both platforms is the winning combination that will allow Mega Info Systems to offer the finest to its clients.»
